Description and History

In an effort to identify General Fund Program Receipts (GF/PR) that were being reduced as part of statewide GF reductions, the Governor requested that some GF/PR be counted as "other funds." The claim was that by reducing GF/PR in some instances, the state was actually limiting its ability to generate additional revenue.

The code was deactivated when legislation created a new fund source code called "statutory designated program receipts." Gifts, Grants, and Bequests were included in the new fund code.
