Description and History

Use of this fund source was not adopted by the legislature.

Fee Supported Increase budget fund code was requested by the Governor for FY00 to identify those programs that are fully supported by fees paid by the recipients of the program services. Traditionally fees had been coded as general fund program receipts, however, this fund source code was established to identify those collections that did not impact the "fiscal gap" caused by a decline in general fund revenue.

The concept was adopted by the legislature when it began using fund code 1156 (receipt supported services in FY01.
