Brief Summary and Statement of Need:

The Bogard Road upgrade project, chosen in the 2023 Department of Transportation and Public Facilities (DOT&PF) Community Transportation Program (CTP), aims to enhance safety and capacity by converting it to an arterial highway standard, with widened shoulders, turn lanes, pathway construction, and intersection improvements from North Earl Drive to North Engstrom Road. Additionally, two separate projects from 2023 are being combined to improve design and construction coordination, addressing access management, drainage, signage, and other safety and capacity enhancements as needed.

Project Description/Justification:

The project will upgrade Bogard Road, between North Earl Drive and North Greentree Street to an arterial highway standard to address safety and capacity issues. The project will construct pathways, provide widened shoulders, construct turn lanes, address access management issues, improve intersections as necessary, provide an improved clear zone, drainage, and signage. The project will also include additional safety and capacity improvements as appropriate. This project was selected in the 2023 DOT&PF CTP solicitation. Two separately awarded 2023 CTP projects are being combined into a parent/child grouping to better coordinate design and construction. The full project length is from North Earl Drive to North Engstrom Road.
