**Brief Summary and Statement of Need:**

Reconstruct airfield pavement - including runways, taxiways, taxi lanes, aircraft parking aprons - as they reach the end of their useful life and perform maintenance work such as crack filling and sealing and spot repairs. The rehabilitation consists of excavating the existing structural section and replacing with a structural section that is designed for the current aircraft mix that use the pavement, including possible widening, as well as disposal of any contaminated soils, repaving, lighting, striping, signage, and storm drainage.
