Project Description/Justification:

Beneficiary and Special Needs Housing program funds pre-development and development activities for Alaska nonprofit service providers and housing developers. Funds are for developing community-based supportive housing in conjunction with the Homeless Assistance Program. This program has developed 307 units since FY2000.

Demand for special needs housing remains critical. The Alaska Mental Health Trust Authority (AMHTA) has made housing one of its five focus areas for funding. The Alaska Independent Living Council and other special needs advocacy groups have identified supportive housing as a top priority

in their statewide planning efforts. Target populations consist of mental health beneficiaries and other special needs groups including severely emotionally disturbed children and the homeless.

Examples of special needs housing include:

- Congregate housing for people with mental illness or developmental disabilities;
- Supportive housing for victims of domestic violence;
- Supportive housing, including assisted living for people with mental illness, developmental disabilities, or multiple disorders;
- Transitional housing with support services for newly recovering alcoholics and addicts; and
- Permanent or transitional housing support for the homeless and AMHTA beneficiaries.

AHFC administer these housing development funds in conjunction with other resources, including other federal grant and tax credit programs, to the greatest extent possible. Leveraging of these funds enables AHFC to administratively streamline housing development projects and expedite the release of funding to nonprofit housing developers, particularly those who also intend to borrow money from AHFC.

Projected Outcomes

- Ongoing operational support for 17 congregate housing properties for victims of domestic violence, people with mental illness or developmental disabilities and chronically homeless Alaskans;
- Reduction in recidivism among clients spending time in institutions;
- Increase in supportive housing, including assisted living, for Alaskans with mental, physical, or developmental disabilities, or multiple disorders; and
- Increase in transitional housing with support services for newly recovering alcoholics and addicts.
