Operating and Capital Appropriations

Legal Authority
AS 28.10.421

Source of Revenue
This fund code is used to identify receipts generated by the purchase of a variety of specialized license plates.

Restrictions on Use
The legislatively designated purpose for the specialized license plate receipts varies by license plate. To ensure that the appropriate revenue is used for the designated purpose, appropriations should include a statutory reference(s) pointing to the specific specialized license plate.

Description and History
Per AS 28.10.421, license plates shall be issued for certain special requests outlined in the statute. For some special request plates, the statute specifies that the revenue shall be separately accounted for and revenue in excess of the cost of issuing the plates may be appropriated to related purposes. Ten of the special request license plates in AS 28.10.421 have designated purposes.

This code was established in the FY15 budget to more clearly account for license plate revenue. However, only three of the ten designated recipients received appropriations from license plate revenue from FY15-20.
