Provide assistance to local winter trail grooming organizations to maintain a well-groomed trail system for utility and recreational uses by snow machiners, skiers, dog mushers, and other winter trail users. Funds for this program are provided by snow machine registration fees paid by Alaskans and are distributed in the form of grants for trail development and maintenance, trail marking and signing, and safety education. These funds may be combined with federal surface transportation block grants set aside in 23 USC 133(k) to further enhance winter trail grooming activities throughout the state.

Project Description/Justification:

Access to the outdoors is critical to the health and well-being of Alaskan residents. Supporting Alaska's wintertime trail network enhances economic vitality and provides Alaskans with recreational opportunities during the winter months. Many of Alaska's recreational opportunities are located off the contiguous road network, and the winter trail system serves as a second road network for residents.

Funds for this program are derived from snow machine registration receipts. The Department of Administration, Division of Motor Vehicles collects receipts from snow machine registrations (\$120,000 to \$185,000 annually) and transfers these funds to the Department of Transportation and Public Facilities.
