The project involves a comprehensive study including all State Executive Branch employee salaries as related to their job class and position descriptions. The information gained from this study will be used to identify and correct discrepancies in pay as compared to similar positions within the private sector within the State. Making State Executive Branch positions match the pay grades of private employees will increase applicant pools for State of Alaska positions by making the State a more competitive employer in a difficult job market. There is potential for cost savings because the study would also identify where the State is over-paying in comparison to private sector pay.

Prior Funding History / Additional Information:**Project Description/Justification:**

The Division of Personnel and Labor Relations to contract out for a comprehensive review of the State's position descriptions and attached salary ranges. It would look for comparators (in-state, out-of-state and private section) to ensure we are in alignment. This will help the State of Alaska keep in in line with the employee pay of comparable positions within the private sector in Alaska. The last salary study was performed in 2009 but was not implemented.
