### Operating and Capital Appropriations

#### Legal Authority

No statutory definition - used for budgetary tracking.

#### Source of Revenue

All taxes, royalties, fees and interest earnings of the state, unless otherwise specified.

#### Restrictions on Use

Use of general fund revenue is unrestricted, in terms of both purpose and amount.

#### Description and History

Fund code 1263 was created in March 2020 at the onset of the pandemic. Under those unprecedented circumstances, the only appropriation vehicle available to expedite unrestricted general fund COVID support was the mental health bill. Although the original appropriation of COVID related unrestricted general funds was not technically mental health related, all funding appropriated in the mental health bill must have a mental health flag. Additionally, fund code 1263's counterpart, code 1266 (COVID UGF Non-MH), was created and utilized in future appropriation bills.
