Description and History

September 2012

This code is designed to allow Alaska to track budgetary changes in response to the federal sequestration process. It should be used for all GF (including match) that is either

- 1) added to the budget to supplant federal funds reduced or restrained by sequestration,
- 2) removed from the GF budget as part of a reduced match requirement due to reduced federal receipts under sequestration, or
- 3) removed from the budget for other reasons related to sequestration.

May 2013

The results of sequestration came too late in the process to be included in the FY14 budget.

August 2016

Inactivated code -- never used for intended purpose.
