

**Fairbanks PM2.5 Nonattainment Area Voluntary Heating  
Device Change Out Program**

**FY2024 Request: \$10,000,000**  
**Reference No: AMD 61721**

**AP/AL:** Appropriation

**Project Type:** Life / Health / Safety

**Category:** Health/Human Services

**Location:** Fairbanks Areawide

**House District:** Fairbanks Areawide (HD 31 - 35)

**Impact House District:** Fairbanks Areawide (HD 31 - 35)

**Contact:** Jason Olds

**Estimated Project Dates:** 07/01/2023 - 06/30/2028

**Contact Phone:** (907)463-5109

**Brief Summary and Statement of Need:**

Continue a voluntary heating device change-out program for residents in the Fairbanks North Star Borough's fine particulate matter (PM2.5) serious nonattainment area. The program is aimed at minimizing particulate matter emissions and improving air quality in the borough. The borough has the highest recorded levels of PM2.5 in the nation. Federal grant funds have been applied for from Environmental Protection Agency (EPA) through the Targeted Airshed Program.

Sec1 Ch18 SLA2014 P10 L12 SB119 \$1,000,000  
Sec1 Ch17 SLA2012 P23 L32 SB160 \$2,500,000  
Sec1 Ch17 SLA2012 P47 L23 SB160 \$850,000  
Sec1 Ch5 SLA2011 P30 L33 SB46 \$3,000,000

**Project Description/Justification:**

The Fairbanks North Star Borough (FNSB) has the highest recorded levels of fine particulate matter air pollution (PM2.5) in the nation. Wood smoke is the primary source, contributing between 60% and 80% to PM2.5 levels. The EPA has classified the FNSB as a serious nonattainment area. As a result of the serious problem and threat to public health, EPA requires the FNSB and State to implement strict air pollution controls in the area. The project under this federal award is designated to enhance the implementation of the committed PM2.5/wood smoke reduction measures identified in the local air quality plan.

**Fairbanks PM2.5 Nonattainment Area Voluntary Heating  
Device Change Out Program**

---

Changing out older, higher polluting home heating devices is an effective way to reduce air pollution. The voluntary program allows residents with solid fuel (e.g., wood, coal, etc.) burning appliances used as primary, secondary, or emergency backup heating sources to convert to oil, electric, natural gas, or propane heaters. The Department of Environmental Conservation estimates that 476 solid fuel fired heating devices will be replaced, removed, or repaired through the voluntary program. Program participants are projected to qualify for an average reimbursement rate of \$7,255, though the amount will vary significantly based on the type of conversion.

The Division of Air Quality has successfully applied for this project through a nation-wide competitive grant program called the Targeted Airshed Grant in the past. No State fund match is required for this federal grant. The Department of Environmental Conservation plans to partner with the Department of Commerce, Community, and Economic Development and the FNSB to administer the change out program as detailed in the grant application.
