Project Description/Justification:

This project is designed to increase the mobility of Alaska Mental Health Trust beneficiaries - Alaskans experiencing mental illness, developmental disabilities, chronic alcoholism with psychosis, or Alzheimer's disease or related dementia, as defined by the Alaska Mental Health Trust.

Funding is granted to private nonprofit and public transportation providers through a competitive grant process, in conjunction with the State's Federal Transit Administration Section 5310 Elderly and Persons with Disabilities Program and the Public Transportation Social Service Van Replacement and Capital Support Program as follows:

- A Request for Proposals is issued.
- Grant applications are initially screened by Department of Transportation and Public Facilities (DOT&PF) staff.
- Grant applications are then evaluated by a Proposal Evaluation Committee comprised of representatives of State-level agencies involved in social services transportation.
- The Proposal Evaluation Committee makes funding recommendations to DOT&PF.
- DOT&PF makes final funding determinations, based upon the Committee's recommendations.

Grants are primarily used to support coordinated community transportation systems because these systems maximize availability of accessible and affordable rides for the beneficiary groups. They do this through operational efficiencies and arrangement of existing resources to maximize leveraging of new resources for transportation services.

Grants are also used for more limited coordinated services and for non-coordinated client transportation, where coordinated systems do not exist, are inappropriate, or cannot yet meet certain beneficiary needs. Vehicles are purchased with the provision that, if a coordinated system becomes available within the usable life of the vehicle, the vehicle will be included in the system.
